

Professional Profile

Glenn L. Keiper, M.D.

WHAT ARE YOUR PRACTICE GOALS? *I strive to exceed the traditional standards of “best practices” in patient care and believe we “Set the Gold Standard in Neurosurgery” in Eugene.*

WHAT IS YOUR NICHE? *Minimally Invasive Spine Surgery, with the only office in Eugene offering “one-stop” spine interventions. In our office, we diagnose spine problems, do interventional spine procedures, physical therapy, as well as outpatient surgery in our surgery center—which is Medicare approved, state licensed and AAAHC certified.*

WHAT ARE YOU PROFESSIONALLY DEDICATED TO? *Improving quality of life for patients through the latest state-of-the-art technology and methods.*

HOW LONG HAVE YOU BEEN IN PRACTICE? *It's been 18 years since I began neurosurgery residency, and I began private practice in Eugene in 1997.*

WHAT HAVE PATIENTS SAID ABOUT DR. KEIPER? *“Today marks the one-year anniversary of the day you did microvascular decompression surgery on me. I thought you'd like to know that I am still pain free. Thank you for using your God-given talent & knowledge to help me!” –Patient*

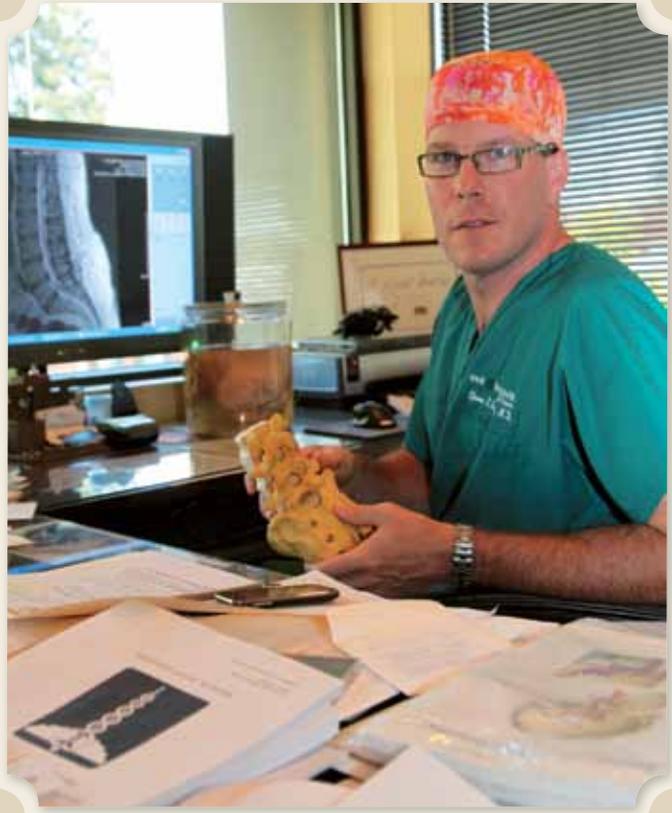

“Words cannot express the thanks you deserve. I feel like you have given me my life back. It is such an awesome feeling to finally be able to sleep through an entire night without being awakened by extreme pain...I don't know if you realize what an incredible person and how special you are...” –Patient

“Thank you for coming to our school. I loved that you brought the brain and the human ‘skul.’ That is something I thought I would never see. I will never forget this experience.” –Erica, Parker Elementary School

WHAT ARE YOU PERSONALLY PASSIONATE ABOUT? *Family, and giving back to the community in positive ways. I am also an avid golfer and wine collector.*

(Dr. Keiper has a wife, two daughters and one son. He competed in Ironman and Triathlon competitions, and has won several golf tournaments and cycling competitions.)

WHAT WOULD YOU LIKE PATIENTS TO KNOW? *Neurosurgery addresses complex problems, and I continue to be inspired by the opportunity I have to care for people. Whatever your neurological challenge, I'm here to face it with you and find trusted solutions.*
